PROJECTS

Aaraksha Smart India Hackathon 2026 · Flagship (in progress)

AI-Native Travel Planning & Offline-Resilient Safety Platform for Northeast India

- 4 independently deployable portals (Tourist, Government, Guardian, Rescuer) sharing one real-time data model, built around a rule-based safety scoring system
- Machine learning component for predictive risk scoring alongside offline-first emergency alerting and a verifiable digital trip record

Node.js · Express · PostgreSQL · Socket.IO · React 19 · TypeScript · MapLibre GL JS · Twilio · Gemini AI

LEVO Production-Grade Fleet & Logistics

Smart Transport Operations Platform

- 9-rule atomic dispatch engine (Prisma transactions) preventing race conditions across 11 PostgreSQL models and 6 enums; RBAC enforced across 4 roles on every route
- Grok AI + OpenWeather integration with hourly risk reassessment via node-cron; 40+ REST endpoints across 9 Express routers

Node.js · Express · TypeScript · Prisma · PostgreSQL · React 18 · Zustand · TanStack Query

PeoplePay360 Odoo Hackathon 2026 · Top 50 of 857 Teams

Explainable HR & Payroll Engine

- Raw PERN stack (zero ORM) — a Postgres exclusion constraint guarantees no two overlapping active employee contracts at the database level, not application-level hope
- Payslip Diff and a What-If Simulator dry-run the real payroll engine with unconditional rollback; read-only Gemini AI assistant scoped to dashboard data only

Node.js · Express · PostgreSQL · React 18 · TanStack Query · Zustand · JWT · Gemini AI

CodeVerter 100% Local · Zero Cloud

Local-First AI Code Converter — 26 Languages

- Self-contained C++17 HTTP server converting code across 26 languages via a locally-running LLM (Ollama) — no cloud API, no API keys, no telemetry by default
- "Run & Compare" actually executes both source and converted code locally and diffs real output, plus streamed complexity analysis with severity-colored Big-O badges

C++17 · cpp-httpLib · Ollama · React · TypeScript · Vite · CMake

EXPERIENCE

Full-Stack Web Consultant Mar 2026 – May 2026 · Freelance

SoundRich Hearing Clinic · Delhi NCR (Remote)

- Audited existing clinic website — identified 8 structural issues including duplicate navigation and zero JSON-LD structured data across 10+ pages; delivered a prioritized remediation roadmap with effort estimates
- Engineered and deployed a production landing page on Vercel; executed a zero-downtime DNS migration from WordPress, owning the engagement end to end
